Exuberant Health
Is a blessing vouchsafed to few. Even those who have been favored by nature with strong constitutions and vigorous frames are apt to neglect the precautions necessary to preserve these precious endowments. Indeed, as a rule, the more healthy and robust a man is, the more liberties he is inclined to take with his own physique. It is some consolation to the naturally weak and feeble to know that they can be so invigorated and built up, by a proper use of the means which science has placed at their disposal, as to have a much better chance of long life, and exemptions from disease and pain, than the most athletic of their fellows who are not so inclined.

It is not too much to say that more than half the people of the civilized world need an occasional tonic, to enable them to support the strain upon their bodies and minds, which the fast life of this restless age occasions. In fact, a pure, wholesome, unexciting tonic is the grand desideratum of the busy millions, and they have the article in Hostetter's Stomach Bitters. It is a stomachic medicine, i. e., it imparts permanent strength to weak systems and invigorates delicate constitutions. Its reputation and its sales have steadily increased. Competitive preparations have been introduced at intervals, and as far as the public is concerned, *ad nauseum*, in the hope of rivaling it; but they have all either perished in the attempt, or been left in the rear. It has been the greatest medical success of the present century, and it is justly certain that no proprietary medicine in this country is as widely known, or as generally used. Ten lightning presses, running incessantly (Sundays excepted), the whole year through, scarcely supply the demand for the Illustrated Almanac, in which the nature and uses of the preparation are set forth, the circulation now being over eight millions a year.

WHOLESALE AND JOBBING GOODS

A Specialty with Us for the Season.

IN view of the yellow fever being in Charleston, preventing a large number of buyers from visiting that city for their fall stock, we have this day telegraphed our partner in New York to buy very largely of such Goods as are usually jobbed in Charleston—as Dry Goods, Boots and Shoes, Hats and Caps, Millinery and Straw Goods. Our third floor will be devoted to wholesaling entirely, and we shall offer Goods at fair prices, and in larger quantities than ever seen in this place before, and on time to approved names. Merchants will please remember that none of these lines are new to us. We have, at short intervals, dealt largely in all these Goods for years.

The lady readers will remember that at this house a Dress can be bought from the finest first class Dress Goods stock in the South, cut and made to fit, and guaranteed to be cut and made by measure sent by mail. The newest style French Bonnet or Hat can be had here. The best and prettiest Shoes here. In fact, we claim for our house that it is "the place" of the South to go the best at the least price.
